THE

AMERICAN JOURNAL OF SCIENCE.

EDITOR: EDWARD S. DANA.

ASSOCIATE EDITORS

PROFESSORS GEO. L. GOODALE, JOHN TROWBRIDGE, H. P. BOWDITCH AND W. G. FARLOW, OF CAMBRIDGE,

PROFESSORS A. E. VERRILL, HENRY S. WILLIAMS, AND L. V. PIRSSON, OF NEW HAVEN,

PROFESSOR GEORGE F. BARKER, OF PHILADELPHIA,
PROFESSOR H. A. ROWLAND, OF BALTIMORE,
MR. J. S. DILLER, OF WASHINGTON.

FOURTH SERIES.

VOL. VII—[WHOLE NUMBER, CLVIII].

WITH ELEVEN PLATES.

PUBL[illegible]ARY,
[illegible], MICH.
APR 10 1900

NEW HAVEN, CONNECTICUT.
1899.

THE TUTTLE, MOREHOUSE & TAYLOR PRESS,

NEW HAVEN, CONN.

CONTENTS TO VOLUME VII.

Number 37.

Page

ART. I.—Thermodynamic Relations of Hydrated Glass; by C. BARUS 1

II.—Platinum and Iridium in Meteoric Iron; by J. M. DAVISON 4

III.—Studies in the Cyperaceæ; by T. HOLM 5

IV.—Regnault's Calorie and our Knowledge of the Specific Volumes of Steam; by G. P. STARKWEATHER 13

V.—Estimation of Boric Acid; by F. A. GOOCH and L. C. JONES 34

VI.—Descriptions of imperfectly known and new Actinians, with critical notes on other species, II.; by A. E. VERRILL 41

VII.—Mineralogical Notes; by W. F. HILLEBRAND 51

VIII.—What is the Loess? by F. W. SARDESON 58

IX.—Absorption of Gases in a High Vacuum; by C. C. HUTCHINS 61

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics—Extraction of Nickel by the Mond Process, ROBERTS-AUSTEN: Ætherion, CROOKES, 64.—Preparation of Graphitic Acid, STAUDENMAIER: Compounds of Lithium and Calcium with Ammonium, MOISSAN, 65.—Spectra of Iodine, KONEN: Manual of Chemical Analysis, Qualitative and Quantitative, G. S. NEWTH: Stratified Brush Discharges in Atmospheric Air, TOEPLER, 67.—Spectrum of Lightning: Dispersion in the Electrical Spectrum, E. MARX: Traité Élémentaire de Méchanique Chimique fondée sur la Thermodynamique, P. DUHEM, 68.—Prismatic and Diffraction Spectra; Memoirs of Joseph von Fraunhofer, 69.

Geology and Mineralogy—Maryland Geological Survey, 69.—Lower Cretaceous Gryphæas of the Texas Region, R. T. HILL and T. W. VAUGHAN: Bibliographic Index of North American Carboniferous Invertebrates, S. WELLER, 70.—Contributions to the Tertiary Fauna of Florida, W. H. DALL: Contributions to Canadian Paleontology, J. F. WHITEAVES: Geological Survey of Canada: Report on the Doobaunt, Kazan and Ferguson Rivers and the Northwest Coast of Hudson Bay, J. B. TYRRELL, 71.—Rivers of North America, a reading lesson for students of geography and geology, I. C. RUSSELL: Earth Sculpture or the origin of land forms, J. GEIKIE, 72.—Elemente der Gesteinslehre, H. ROSENBUSCH, 73.—Educational Series of Rock Specimens collected and distributed by the U. S. Geological Survey, J. S DILLER: Mechanical Composition of Wind Deposits, J. A. UDDEN, 74.—Brief notices of some recently described Minerals, 75.

Botany and Zoology—Poisonous effect exerted on living plants by Phenols, R. H. TRUE.—Peculiar mode of formation of pollen-grains in Magnolias, GUIGNARD: Elements de Botanique, P. VAN TIEGHEM, 77.—Sketch of the Evolution of our Native Fruits, L. H. BAILEY: Bush-Fruits, F. W. CARD: Metamorphosis of Asterias pallida with special reference to the fate of the Body Cavities, S. GOTO, 78.—Zoological Results based on material from New Britain, New Guinea, Loyalty Islands, and elsewhere, collected during 1895–97, A. WILLEY: Account of the Crustacea of Norway, with figures of all the species, G. O. SARS: Mollusca of the Chicago Area: The Pelecypoda, F. C. BAKER: Catalogus Mammalium tam viventium quam fossilium, E.-L. TROUESSART: Fishes of North and Middle America, D. S. JORDAN and B. W. EVERMANN, 79.

Miscellaneous Scientific Intelligence—Institute of France: Annual Report of the Board of Regents of the Smithsonian Institution: Ursprung der Afrikanischen Kultur, L. FROBENIUS: Organic Evolution Considered, FAIRHURST, 80.

Number 38.

Page

ART. X.—Contribution to the Study of Contact Metamorphism; by J. M. CLEMENTS 81

XI.—Origin of Mammals; by H. F. OSBORN 92

XII.—Chemical Composition of Tourmaline; by S. L. PENFIELD and H. W. FOOTE 97

XIII.—Littoral Mollusks from Cape Fairweather, Patagonia; by H. A. PILSBRY. (With Plate I.) 126

XIV.—Thermodynamic Relations for Steam; by G. P. STARKWEATHER 129

XV.—Descriptions of imperfectly known and new Actinians, with critical notes on other species, III; by A. E. VERRILL 143

XVI.—Volumetric Method for the Estimation of Boric Acid; by L. C. JONES 147

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics—Molecular Masses of Gases, D. BERTHELOT: Preparation of Metals and Alloys by means of Aluminum, GOLDSCHMIDT, 154.—Electrolytic Preparation of Beryllium, LEBEAU, 155.—Colloidal Silver, LOTTERMOSER and VON MEYER: Silver peroxide and peroxynitrate, MULDER, 156.—Neodymium, BOUDOUARD: Leçons de Chimie Physique professées à l'Université de Berlin, J. H. VAN'T HOFF: Outlines of Industrial Chemistry, F. H. THORP, 157.—Charge of Electricity carried by the ions produced by Röntgen Rays, J. J. THOMSON: Use of the Coherer in Measuring Electric Waves, O. BEHRENDSEN, 158.—Color Blindness and the Röntgen Rays, E. DORN: Regenerating Vacuum Tubes, W. ROLLINS, 159.

Geology and Natural History—Age of the Earth, LORD KELVIN, 160.—Recent Publications of the U. S. Geological Survey, 166.—Catalogue of the Cretaceous and Tertiary plants of North America, F. H. KNOWLTON: Iowa Geological Survey, Annual Report, 1897, S. CALVIN: Preliminary Report on a Part of the Gold Deposits of Georgia, W. S. YEATES, S. W. MCCALLIE and F. P. KING, 168.—Report of the Governor of Arizona to the Secretary of the Interior: Die natürlichen Pflanzenfamilien, ENGLER: Fishes of North and Middle America, D. S. JORDAN and B. W. EVERMANN, 169.

Miscellaneous Scientific Intelligence—Ostwald's Klassiker der Exakten Wissenschaften: University of Tennessee Record of Scientific Engineering, 170.

Number 39.

Page

ART. XVII.—Studies in the Cyperaceæ; by T. HOLM 171

XVIII.—Granitic Breccias of Grizzly Peak, Col.; by G. H. STONE 184

XIX.—Constitution of the Ammonium-Magnesium Phosphate of Analysis; by F. A. GOOCH and M. AUSTIN .. 187

XX.—Crystal Symmetry of the Minerals of the Mica Group; by T. L. WALKER 199

XXI.—Descriptions of imperfectly known and new Actinians, with critical notes on other species, IV; by A. E. VERRILL 205

XXII.—Study of some American Fossil Cycads. Part I. The Male Flower of Cycadeoidea; by G. R. WIELAND. (With Plates II–IV.) 219

XXIII.—Footprints of Jurassic Dinosaurs; by O. C. MARSH. (With Plate V.) 229

XXIV.—New Kansas Meteorite; by H. L. WARD 233

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics—Density and Composition of Liquid Air, LADENBURG and KRÜGEL, 234.—Semi-Permeable Membranes, MIJERS, 235.—Solution of Platinum and Gold in Electrolytes, MARGUELES: Aqueous Solutions of Metallic Gold, ZSIGMONDY: Explosion of Mixtures of Methane and Air by the Electric Current, COURIOT and MEUNIER, 236.—Crystallized Compound of Cuprous Chloride and Acetylene, CHAVASTELON: Matter, Energy, Force and Work, S. W. HOLMAN, 237.—Uranium Radiation, and the Electrical Conduction produced by it, RUTHERFORD, 238.—Silver Voltameter and its use in determinations of normal elements, K. KAHLE: Absorption of light by a body placed in the magnetic field, RHIGI, 239.

Geology and Mineralogy—Recent Earth Movement in the Great Lakes Region, G. K. GILBERT, 239.—Petrology of Rockall Island. J. W. JUDD, 241.—Recherches géologiques et pétrographiques sur le massif du Mont Blanc, L. DUPARC and L. MRAZEC: Native Silver in North Carolina, G. F. KUNZ, 242.—Occurrence of polycrase in Canada, G. C. HOFFMANN: Kaolins and Fire Clays of Europe, and the Clay-working Industry of the United States in 1897, H. RIES, 243.—Origin of the Gases evolved on heating Mineral Substances, Meteorites, etc., M. W. TRAVERS, 244.

Botany and Zoology—Symbolæ Antillanæ seu Fundamenta Floræ Indiæ Occidentalis, I. URBAN: Plant life, considered with special reference to form and function, C. R. BARNES, 244.—Rhodora: Journal of the New England Botanical Club, 245 —Catalogue of the Lepidoptera Phalænæ in the British Museum, Vol. I, Syntomidæ, G. F. HAMPSON, 246.

Miscellaneous Scientific Intelligence—Report of S. P. Langley, Secretary of the Smithsonian Institution, for the year ending June 30th, 1898, 246.—Physical Geography, W. M. DAVIS: Annual Report of the Director of the Field Columbian Museum, 248.

Obituary—LOUIS W. PECK, 248.

Number 40.

Page

ART. XXV.—Glacial Lakes Newberry, Warren and Dana, in Central New York; by H. L. FAIRCHILD. (With Plate VI.) 249

XXVI.—Rapid Method for the Determination of the Amount of Soluble Mineral Matter in a Soil; by T. H. MEANS 264

XXVII.—New Type of Telescope Objective especially adapted for Spectroscopic Use; by C. S. HASTINGS 267

XXVIII.—Phenocrysts of Intrusive Igneous Rocks; by L. V. PIRSSON 271

XXIX.—Occurrence, Origin and Chemical Composition of Chromite; by J. H. PRATT 281

XXX.—Influence of Hydrochloric Acid in Titrations by Sodium Thiosulphate, with special reference to the Estimation of Selenious Acid; by J. T. NORTON, Jr. 287

XXXI.—Rock-forming Biotites and Amphiboles; by H. W. TURNER 294

XXXII.—One little known and one hitherto unknown species of Saurocephalus; by O. P. HAY 299

XXXIII.—Some American Fossil Cycads. Part II; by G. R. WIELAND. (With Plate VII.) 305

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics—Luminous and Chemical Energy, BERTHELOT, 309.—Homogeneity of Helium, RAMSAY and TRAVERS: Properties of Ozone, LADENBURG, 310.—Preparation of Alkali Nitrites, DIVERS: Composition of American Petroleum, YOUNG: Electrical waves along wires, A. SOMMERFELD, 311.—Polarization and hysteresis in dielectrics, W. SCHAUFELBERGER: New method of showing electric waves, A. NEUGSCHWENDER: Separation of long waves of heat by means of quartz prisms, H. RUBENS and E. ASCHKINASS: Theory of conduction of electricity through gases by charged ions, J. J. THOMSON: Hall phenomenon and the theory of Lorentz. POINCARÉ, 312.—Relation of the Surface Tension and Specific Gravity of certain Aqueous Solutions to their State of Ionization, E. H. ARCHIBALD: Cause of the Absence of Coloration in certain Limpid Natural Waters, W. SPRING, 313.—Text-Book of General Physics for the use of Colleges and Scientific Schools, C. S. HASTINGS and F. E. BEACH, 314.

Geology and Mineralogy—New facts regarding Devonian Fishes, C. R. EASTMAN, 314.—Geological Sketch of San Clemente Island, W. S. T. SMITH: Geology of the Edwards plateau and Rio Grande plain, etc., R. T. HILL and T. W. VAUGHAN, 315.—South Dakota Geological Survey, Bulletin No. 2, J. E. TODD: Crater Lake, Oregon, J. S. DILLER: International Geological Congress: International Geographical Congress, 316.—Funafuti, W. J. SOLLAS: Petrographical and Geological Investigations of certain Transvaal Norites, Gabbros, and Pyroxenites, J. A. L. HENDERSON, 317.—Occurrence of Corundum, T. H. HOLLAND and W. G. MILLER, 318.—Minerals in Rock Sections, L. MCI. LUQUER: New Mineral Names, 319.

Miscellaneous Scientific Intelligence—Benjamin Apthorp Gould Fund, 320.—Annual Report of the Board of Regents of the Smithsonian Institution for the year ending June 30, 1896: Second Washington Catalogue of Stars, 321.—Zoological Results based on material from New Britain, New Guinea, Loyalty Island and elsewhere, collected during the years 1895–97, A. WILLEY: Select Bibliography of Chemistry, 1492–1897, H. C. BOLTON: Biological Laboratory, 322.

Number 41.

Page

ART. XXXIV.—Some Experiments with Endothermic Gases; by W. G. MIXTER 323

XXXV.—Hypothesis to explain the partial non-explosive Combination of Explosive Gases and Gaseous Mixtures; by W. G. MIXTER 327

XXXVI.—Occurrence of Paleotrochis in Volcanic Rocks in Mexico; by H. S. WILLIAMS 335

XXXVII.—Origin of Paleotrochis; by J. S. DILLER 337

XXXVIII.—Association of Argillaceous Rocks with Quartz Veins in the Region of Diamantina, Brazil; by O. A. DERBY 343

XXXIX.—Goldschmidtite, a New Mineral; by W. H. HOBBS 357

XL.—Hydromica from New Jersey; by F. W. CLARKE and N. H. DARTON 365

XLI.—Powellite Crystals from Michigan; by C. PALACHE .. 367

XLII.—Volatilization of the Iron Chlorides in Analysis, and the Separation of the Oxides of Iron and Aluminum; by F. A. GOOCH and F. S. HAVENS 370

XLIII.—Descriptions of imperfectly known and new Actinians, with critical notes on other species, V; by A. E. VERRILL 375

XLIV.—Preliminary Note as to the Cause of Root-Pressure; by R. G. LEAVITT 381

XLV.—Study of Some American Fossil Cycads. Part III; by G. R. WIELAND. (With Plates VIII–X.) 383

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics—Low Temperature Experiments, HEMPEL, 392.—Reductions in Presence of Palladium, ZELINSKY: Properties of Metallic Calcium, MOISSAN, 393.—New Bases from Strychnine, TAFEL: History of Physics in its Elementary Branches including the Evolution of Physical Laboratories, F. CAJORI, 394.—Electrolytic Interrupter, A. A. C. SWINTON: Measurement of slow electrical oscillations, W. KÖNIG, 395.—Electric waves on wires, W. D. COOLIDGE: Absorption of the X-rays by air: Optischen Instrumente der Firme R. Fuess, C. LEISS, 396.

Geology and Natural History—Note on a Bridger Eocene Carnivore, O. C. Marsh: Age of the Franklin White Limestone of Sussex County, N. J., J. E. WOLFF and A. H. BROOKS, 397.—West Virginia Geological and Economic Survey: Alabama Geological Survey, W. B. PHILLIPS: Development of Lytoceras and Phylloceras, J. P. SMITH: Pre-Cambrian Igneous Rocks of the Fox River Valley, Wisc., S. WEIDMAN, 398.—West Virginia Geological Survey, I. C. WHITE: New and interesting olivine-melilite-leucite rock, V. SABATINI, 399.—Deuxième Mémoire sur les Algues Marines du Groenland, L. K. ROSENVINGE: Monographie des Caulerpes, A. W. BOSSE, 400.—Dispositione Delesseriearum, J. G. AGARDH, 401.

Miscellaneous Scientific Intelligence—National Academy of Sciences, 401.—Annual Report of the Board of Regents of the Smithsonian Institution, to July, 1897: Harper's Scientific Series, 402.

Obituary—Dr. GUSTAV WIEDEMANN, 402.

Number 42.

Page

Othniel Charles Marsh; by C. E. BEECHER 403

ART. XLVI.—Camden Chert of Tennessee and its Lower Oriskany Fauna; by J. M. SAFFORD and C. SCHUCHERT 429

XLVII.—Recent discovery of rocks of the age of the Trenton formation at Akpatok Island, Ungava Bay, Ungava; by J. F. WHITEAVES 433

XLVIII.—Studies in the Cyperaceæ, X; by T. HOLM 435

XLIX.—Roscoelite; by W. F. HILLEBRAND and H. W. TURNER, with a note on its chemical constitution by F. W. CLARKE 451

L.—Gravitation in Gaseous Nebulæ; by F. E. NIPHER 459

LI.—Titration of Oxalic Acid by Potassium Permanganate in presence of Hydrochloric Acid; by F. A. GOOCH and C. A. PETERS 461

SCIENTIFIC INTELLIGENCE.

Chemistry and Physics—Influence of Electric Oscillations on Vapors, KAUFFMAN: Occlusion of Oxygen and Hydrogen by Platinum black, MOND, RAMSAY and SHIELDS, 468.—Certain Derivatives of Acetylene, ERDMAN and KÖTHNER, 469.—Eutropic Series of the Calcium Group, EPPLER: Distribution of Vanadium, HASSELBERG, 470.—Determination of time of vibration of very high notes, F. MELDE: Heat conductivity of different kinds of glass, A. WINKELMANN: Absorption of Electric Waves by different substances, E. BRANLY and G. LEBON: Radiations of Uranium, H. BECQUEREL, 471.—Source of Uranium Radiations, W. CROOKES: Phosphorescence at Low Temperatures, A. and L. LUMIÈRE: Recueil Données numériques publié par la Société Française de Physique, H. DUFET, 472.

Miscellaneous Scientific Intelligence—Icthyologia Ohiensis by C. S. Rafinesque, R. E. CALL: Elementary Physiology, B. MOORE, 473.—Experimental Morphology, Part II, C. B. DAVENPORT: Recherche, Captage et Aménagement des Sources Thermo-Minérales, L. DE LAUNAY, 474.

Obituary—Dr. FRANZ RITTER VON HAUER, 474.

INDEX TO VOLUME VII, 475.
